

Carousel Tract (Former KAST Property Tank Farm)
Winter 2016
Community Update

Remedial Design and Implementation Plan (RDIP) Approved

The Los Angeles Regional Water Quality Control Board (Regional Board) approved the **Remedial Design and Implementation Plan (RDIP)**, a site-wide plan for the cleanup of the Carousel neighborhood. On Saturday, November 21, 2015, the Regional Board hosted three Open House sessions and discussed the RDIP in detail with homeowners/residents in attendance.

Now that the RDIP is approved, Shell and its contractors are conducting ongoing cluster meetings with residents/homeowners throughout the year to discuss **Property Specific Remedial Plans (PSRP)**. A "cluster" is a group of up to ten properties where cleanup work will occur at the same time. Your cluster is identified in the RDIP <http://tinyurl.com/zw3cd4j> starting on Page 170 (Table 9-1).

PSRPs for each property where cleanup actions are planned will include soil excavation and backfill, installation of SVE/bioventing wells and piping, installation of sub-slab depressurization systems, as required or requested, and site restoration. Landscape and hardscape restoration plans will be developed in consultation with each homeowner/resident.

Come see an example of the Sub-Slab Depressurization (SSD) System Installation and Site Restoration. You are welcome to drop by to see the demonstration Sub-Slab Depressurization (SSD) System Installation and Site Restoration at **24628 Marbella Avenue**. For more information, call the Shell Community Information Hotline at 310-857-2335.

Dr. Teklewold Ayalew, Regional Board Project Manager • (213) 576-6739 • Teklewold.Ayalew@waterboards.ca.gov

Susana Lagudis, Regional Board Public Participation • (213) 576-6694 • susana.lagudis@waterboards.ca.gov

Outreach Committee

The Los Angeles Regional Board established a Cleanup Outreach Committee whose role is to share information to make the cleanup process as smooth as possible for residents and the community. The Outreach Committee Resident Members are:

| Name | Email | Phone |
|------------------------|--|--------------|
| Debbie Frank | mdlcf Frank@gmail.com | 310.918.4308 |
| Barbara Post | barb.post@sbcglobal.net | 310.834.9338 |
| Kathy Post | kpost00@yahoo.com | 310.549.8612 |
| Joyce Sayre-Smith | jsayresmith@sbcglobal.net | 310.344.0510 |
| Sharon Shipman-Mirabal | mirabalsharon@yahoo.com | 424.263.1964 |
| Renee Torres | reneetorres91b@gmail.com | 310.415.1665 |

The Committee member's responsibilities include:

- Serving as a link to neighbors
- Identifying issues experienced during cleanup activities
- Discussing upcoming activities related to cleanup
- Helping to develop and distribute outreach materials

If you are interested in serving as an Outreach Committee member, contact Susana Lagudis, Regional Board Public Participation (213) 576-6694 susana.lagudis@waterboards.ca.gov

Cleanup Activities Sequence

Cleanup activities are based upon currently available information, and may be subject to change.

The mission of the California State Water Resources Control Board and the nine Regional Water Quality Control Boards is to preserve, enhance and restore the quality of California's water resources for the benefit of present and future generations. The goals of the Los Angeles Regional Water Quality Control Board's (Regional Board) site cleanup program are to protect and restore water resources and establish stringent goals to protect human health, water quality, and the environment, today and into the future.
